Aditya Birla Memorial Hospital successfully organized the National Conference on Quality Improvement & Patient Safety for the fourth time in Pune.

14th March, 2016, Pune: Aditya Birla Memorial Hospital, Maharashtra’s first Joint Commission International (JCI), USA and NABH Accredited Hospital successfully organized the 4th National Conference “ABMH QIPS-IV, 2016” on Quality Improvement & Patient Safety on March 12th & 13th, 2015 at Aditya Birla Memorial hospital Auditorium. The two day conference, ABMH QIPS IV, is the fourth consecutive initiative by Aditya Birla Hospital, Pune. The hospital received a tremendous response from the healthcare industry commending their contribution towards quality improvement and patient safety during QIPS IV. More than 250 participants from the leading hospitals and healthcare organizations across the country participated in this conference.

“Patient safety and providing them the best quality of healthcare has always been our objective. It is in pursuit of this endeavor that we had organized the QIPS conference for the fourth time. Like previous conference, this year also we have received an overwhelming response for the conference. The industry stalwarts have appreciated this initiative of ours as it serves as a good platform to come together and work towards the betterment of the society”, said Ms. Rekha Dubey, CEO, Aditya Birla Memorial Hospital. "We reviewed the current status of quality and safety in healthcare programs in India and identified strategies to improve the same”, she further added.

The conference witnessed speakers and delegates from renowned hospitals all over India. Eminent Healthcare Executives mainly the CEO’s, COO’s, Medical Administrators, Quality Heads actively participated in the conference and discussed various aspects of Quality Improvement and patients safety.
The 2 days Conference was highly academic and covered various aspects of:

- Clinical Audit – Clinical Application.
- Elements to measure the safety and getting the satisfaction.
- Leading quality essentials for managers.
- Re-design care to improve clinical outcomes.
- Why is accreditation essential for quality and safety?
- Debate – does accreditation makes a different in quality?
- Longer association with one organization (Boon/Bane)
- Nursing activities to improve patient safety
- IT in health care

- There were debates on key topics and also a multidisciplinary panel discussion on few topics. The Conference also had paper presentation sessions where the talent of the participants from various hospitals and healthcare organizations was showcased in this large gathering.
